

Ready, Set... React! Science

A super-cool science show for curious students!

For Grades K-6 • Hands-On • Laugh-Out-Loud Learning

About the Show

Can your students predict, experiment, and wow the crowd with science that looks too cool for school—but is 100% awesome academics?

Ready, Set... React! Science is a wildly fun, interactive science show blending chemistry, physics, math and pure imagination — brought to life by Professor Dreem.

- 🕒 Ideal for grades K-6
- 🕒 Perfect for classroom shows or small assemblies
- 🕒 Also available for after-school programs and STEM camps
- 🕒 Combines real-world science, hands-on learning, and tons of laughter

Academic Focus Areas

Chemistry

- 🕒 Acids, bases, and the pH scale
- 🕒 Chemical reactions (gas production, oxidation, color change)
- 🕒 Density and solubility

Physics

- 🕒 Surface tension and density differences
- 🕒 Air pressure and gas properties
- 🕒 Polymers and materials science

Math & Geometry

- 🕒 Patterns, sums, and mathematical “magic”
- 🕒 Geometry of shapes and perimeter

Earth Science

- 🕒 The water cycle: evaporation, condensation, and precipitation
- 🕒 Understanding clouds and rain formation

Scientific Method & Curiosity

- 🕒 Making predictions
- 🕒 Testing hypotheses
- 🕒 Celebrating mistakes and discoveries!

Format & Booking

- 🕒 Best for Classrooms or Small Groups (35-60 students)
- 🕒 Up to four 45-minute classroom shows per day
- 🕒 Option to adapt into 1-2 larger assemblies (by special request)
- 🕒 Additional sessions available upon request
